**In-line skating program 22-26 October 2007**

Dear Parent/ Guardian.

I am very pleased to be offering a week of in-line skating as a part of the PE program at Foothills Academy. Students will have 3 sessions of tuition from the experts at Alien In-Line skating where fun, safety and skill building will be a priority. This will take place in their regular gym class in our school gym.

All equipment will be provided, however if students wish to **bring their own helmets** for this activity that would be great!

Please ensure your son/daughter wears comfortable clothing so they will be free to move and perform the tasks asked of them during the lessons. **BRING A BASEBALL CAP TO WEAR UNDER THE HELMET IF YOU CANNOT BRING YOUR OWN HELMET!**

We have always had a terrific week of activity on skates and hope to do the same this time. **The expectation is for your son or daughter to participate as they would in their regular gym class. No permission slip is required as you have all returned the general activity permission slip at the beginning of the school year.**

**If you have any questions or concern with this - please e-mail me at [vtoffolo@foothillsacademy.org](mailto:vtoffolo@foothillsacademy.org)**

Thanks in advance for your support for this activity.

Yours truly,

Mrs. Vivienne Toffolo  
Athletic Director
