

## INSIDE ADHD FOR EDUCATORS

**Did you know that two to three children in a typical inclusive classroom have been diagnosed with ADHD?**

Do you have the tools to help these struggling students? If not, you're not alone. Many teachers are unaware of what this diagnosis means and how it can impact students academically and emotionally and affect the classroom as a whole. The good news is that what works for students with ADHD can benefit ALL students!

**A Closer Look:** Inside ADHD for Educators takes you inside the world of Attention Deficit/Hyperactivity Disorder (ADHD) at school, one module at a time. This 10-module course has been designed for professionals who work with or plan to work with students with ADHD. Our mission is to increase knowledge, skills, and abilities to maximize teacher and student success.
